

League Engineering Services Work Health and Safety Policy

We will:

- Demonstrate our commitment with visible, real leadership and whole safety governance
- Collaborate, consult and cooperate with our customers, employees and stakeholders to strive for a safer workplace
- Maintain, monitor and review our safety management plan and systems that encourage ownership and accountability
- Comply with all relevant regulatory and statutory requirements
- Encourage our people to maintain a safe and healthy workplace and environment by looking out for themselves and their mates
- Foster a safety culture with our people to speak out if something doesn't look or feel right
- Promote positive communication

Our people will be safety front-runners by:

- Taking care of our own health and safety
- Promoting safety in a positive light
- Speaking up if something doesn't look or feel right, with positive communication
- Working with, and following the Contractor's safety guidelines and instructions on work sites
